REMARKS

Applicants have cancelled claims 5-7 and amended claims 1 and 9-11 pursuant to the interview conducted on July 15, 2003 with Examiners Karen Carlson and Samuel Liu. Applicants submit that the term "topical administration" is defined in the specification to include administration via "inhalation" (Specification page 11, lines 14-16). Thus, the Applicants are not amending claims 9-11 to exclude the word "topically."

Claims 1-4 and 8-11 are currently pending and are in condition for allowance.
